

BLUEMOUND ROAD, OVER US 45, **TO OPEN BY MEMORIAL DAY!**

DRIVERS, PLEASE NOTE:

The ramps at Bluemound Road have not yet been reconstructed. There is currently no access to and from US 45 at Bluemound Road. Please utilize the newly reconstructed Watertown Plank Road interchange for access to US 45.

***ALL OPENINGS & CLOSURES ARE WEATHER DEPENDENT AND SUBJECT TO CHANGE.**

NEW PEDESTRIAN CROSSING SYSTEM

As part of the Zoo Interchange project the pedestrian crossing west of 99th Street, on Bluemound Road, has been upgraded to a *Pedestrian Hybrid Beacon (PHB)* system. The PHB system is designed to provide a safer means for pedestrians to cross a busy stretch of roadway, such as Bluemound Road. The pedestrian crossing is now integrated with the other adaptive signals along Bluemound Road and will remain "dark" when pedestrians are not present, but will show a red light and require vehicles to stop when pedestrians are present (see below).

WISCONSIN AVENUE OVER US 45

The Wisconsin Avenue Bridge, over US 45, will close when the Bluemound Road Bridge re-opens. The bridge will be reconstructed and is slated to re-open in late 2016.

The US 45 entrance and exit ramps to/from Wisconsin Avenue permanently closed in late fall 2014.

During the closure of Wisconsin Avenue, motorists should use Bluemound Road or Watertown Plank Road to cross US 45.

NEARBY NEIGHBORHOODS

There are many neighborhoods situated between Wisconsin Avenue and Bluemound Road. Accommodations have been made for additional traffic along the suggested detour routes.

Please be courteous to the many local residents and travel on the suggested detour routes instead of traveling through neighborhoods.
